**Attachments:** ATT00001.txt; PFAS Study - Location-Sample ID all media.xlsx

Hi John,

See attached spreadsheet (see 2<sup>nd</sup> tab "Tidal SW-Sed") with location data and notes for each sample. The surface water and sediment samples were taken at the same location.

Thanks,

Erica

Hi Erica,

Do you happen to have the sample source locations for the sediment and water samples? I have the soil locations but not these other media.

I hope you are doing well,

John

Yes, and we are already getting press inquiries on the Solvay replacement compound. The second one is hot off the presses. There are others NRD complaints that were filed today for three other DuPont/Chemours sites in NJ: Parlin, Repauno and Pompton Lakes.

Thanks for the info Erica. I had already gotten the first one from many routes. The second one is new to me.

Mark

**Subject:** NJ news on Solvay and Chemours

Andy, Mark and John,

Thought you all would like to know....

NJDEP issued an enforcement directive on 3/25/19 to Solvay and DuPont/Chemours/3M, etc. (attached) regarding PFAS releases to the environment over the state of NJ.

Chemours/DuPont Chambers Works (south of Solvay) also received a legal complaint today (attached) with regarding damages to natural resources (NRD). The NRD claim pertains to all contaminants released to the environment including PFAS and others.

This got a lot of press in NJ, here is one story: <https://theintercept.com/2019/03/27/new-jersey-pfas-contamination/>

There will be more regarding that area of the state in the coming months.
